Ramya Auroprem is an associate in Axinn's Intellectual Property group. Her practice focuses on patent litigation in district courts and Section 337 investigations at the International Trade Commission. Ramya has handled matters involving 3G/4G cellular communications standards and cloud technology, and on behalf of both originator and generic pharmaceutical clients.

Prior to joining Axinn, Ramya was a judicial extern for the Honorable Elizabeth D. Laporte in the U.S. District Court for the Northern District of California and a research assistant for Professor Andrea Chandrasekher. She holds a BS in Chemical Biology from the University of California, Berkeley and served as an executive editor of the *UC Davis Law Review*, president of the King Hall Intellectual Property Law Association, and a member of the King Hall Moot Court Honors Board.
